LaBarge Weinstein LLP, a leading business law firm, has an immediate opening for a Technology lawyer to join our busy law practice in the firm's Ottawa or Vancouver office.

In this position you will work as part of a team of lawyers responsible for counselling the firm's clients on various matters related to technology and intellectual property law. You will advise clients on matters related to the commercialization of intellectual property and technology products, including the drafting and negotiation of: software license agreements (both as distributed software and in a software-as-a-service model); distribution agreements for technology-based products (including hardware, software and combined hardware and software products); and in-bound and out-bound intellectual property licenses (including patent, trade secret and trade mark licenses). You will also be expected to provide clients with legal support for online and social media businesses, including the provision of advice in respect to privacy and other compliance-related matters. Finally, you will be involved in the firm's active mergers and acquisitions practice by providing technology and intellectual property support for M&A transactions, including the conduct of due diligence and review of representations and warranties in respect to technology and intellectual property matters.

Candidates must have 4 to 6 years of experience working in the area of Technology and Intellectual Property Law.

Interested applicants may apply by forwarding their resume to Keri McDonald by email at kmcdonald@lwlaw.com. We thank all applicants who apply but only those invited to be interviewed will be contacted.
